##### Set up your product

- Turn on the keyboard:
  - Bluetooth discovery starts automatically and continues for 15 minutes. The status light blinks blue.
  - If the status light briefly turns red, charge the batteries. For more information, see Charge the Batteries.
- Make sure your iPad's Bluetooth feature is on. Select Settings>General>Bluetooth>On.
- Select on the iPad's Devices menu.
- If your iPad requests a PIN, enter the code using the Keyboard. After the Bluetooth connection is made, the Status light briefly turns blue, and then it turns off.
- Place the iPad in the magnetic slots.

3

#### Ultra-thin Bluetooth Keyboard

##### Charge the batteries

##### Battery Information:

- A full charged battery provides about 4 weeks of use and about 80 hours of continuous use.
- Charge the batteries when the status light briefly turns red after the keyboard turns on.
- When not in use, turn off the Keyboard to conserve battery power.
- The Keyboard enters sleep mode if powered on and not used. Press any key to wake.

Preparation: Please make sure that both iPad and Bluetooth keyboard are fully charged prior to proceeding (for first use please charge it with supplied USB cable for 4 hours). Please note: If you're experiencing a "lag" while typing, this is a sign that your battery level is low and must be charged.

##### Storing the iPad for travel

- Lift the iPad from the Keyboard.
- Rotate the iPad, with the screen side down, so the Home button is on the right.
- Place the iPad into the magnetic clips to hold the iPad in position.

##### Connecting to a different iPad

- Make sure the Keyboard is turned on.
- Check that your iPad's Bluetooth feature is on. Select Settings>General>Bluetooth>On.
- Press the Bluetooth Connect Button. The Keyboard is discoverable for 3 min.
- Select on the iPad's Devices menu.
- If your iPad requests a PIN, enter the code using the keyboard and not your iPad's virtual keyboard. After the Bluetooth connection is made, the Status light briefly turns blue, and then it turns off.
- Place the new iPad on the keyboard.

##### Troubleshooting

##### The keyboard does not work

- Press any key to wake the keyboard from sleep mode.
- Turn the keyboard off and then back on.
- Recharge the internal batteries.
- For more information, refer to Charge the batteries.
- Re-establish the Bluetooth connection between the keyboard and iPad.
- Verify that iPad's Bluetooth feature is turned on.
- Choose Bluetooth Keyboard from the Devices menu on your iPad.
- The Status light briefly turns blue after the Bluetooth connection is made.

##### Battery Disposal

- Pry off top of keyboard with screwdriver.
- Detach battery from circuit board and remove battery.
- Dispose your product and its battery according to local laws.

##### Product Specification

- Operating Distance to 10 meters
- Modulating System: GFSK
- Bluetooth: 3.0 without EDR

##### FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
