### Troubleshooting

If the keyboard is not working with the iPad (or other Bluetooth devices) make sure:

- 1) The Bluetooth function on the iPad (or other Bluetooth devices) is enabled.
- 2) The Bluetooth keyboard is within 33 feet of the iPad.
- 3) The passkey is entered correctly.
- 4) Restart the computer (or other Bluetooth devices).
- 5) Battery which built-in keyboard in low power station, please recharge it.
- 6) If you by accidentally press the CONNECT key when the two devices have been connected, it will cause the malfunction of the keyboard. The LED light of the CONNECT key will keep blinking. To solve this problem, you just simply restart the keyboard by turning it on again. A pairing will not be required if it has been previously done.

### Product Specifications

- 1) Bluetooth Specification: Version 2.1 Class 2
- 2) Range of Frequency: 2.4GHz Spectrum
- 3) Operating Voltage: 3.7Vdc (powered by Li-ion)
- 4) Operation current: <5mA
- 5) Standby Current: 1.0mA
- 6) Sleep current: <0.25mA
- 7) Transmit Range: up to 10 meters

This device complies with Part 15 of the FCC Rules: Operation is subject to the following two conditions:  
1. This device may not cause harmful interference and  
2. This device must accept any interference that is received, including any interference that may cause undesired operation.

# User' Guide

## Bluetooth Wireless Keyboard

Blue LED Blinking: Pairing  
Red LED on: Charging  
Green LED on: Battery is fully charged  
Green LED blinking: Low in Battery  
Yellow LED on: Caps lock

### Installation Guide

#### Step 1. Charging the battery

1. For the first time user, Please charge the keyboard for at least 6 hours before using it. Thereafter, charge for at least 2 hours when the battery runs low.
2. The LED blinks green when battery is low. The LED light is green when it is fully charged.
3. Connection Charging Cable

#### How to Charge the battery:

- To charge the keyboard, Connect the 5V.DC input form the keyboard into the computer USB port with the connector cable provided. The Keyboard can function while charging.

#### Step 2. Pairing your Bluetooth Keyboard with your iPad/iMac/ iPhone or other Bluetooth enabled device.

The following sample shows how to pair the Bluetooth keyboard with your iPad.

- Before you can use your keyboard, you have to pair it with your iPad. Pairing allows your keyboard to communicate wirelessly with your iPad. You only have to perform the pairing once.
- 1. Turn on the keyboard and press the CONNECT key on the keyboard. The LED light will blink blue. Then on the screen of the iPad, you search for Settings-->General-->Bluetooth.
- 2. Enable the Bluetooth function, and it will search for the Bluetooth keyboard automatically. When the Bluetooth keyboard is discovered, select the "Bluetooth keyboard" from the iPad screen, a passkey will appear on the screen of the iPad. Type in the passkey provided and press the ENTER key on the keyboard. Your Bluetooth keyboard will then be successfully paired with your iPad.

#### FCC Certification Requirements

Caution: Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and  
(2) This device must accept any interference received, including interference that may cause undesired operation.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
